KITCHEN NIGHTMARES: SCHOOL CANTEENS FAILED IN HYGIENE AND CLEANING

School is about to begin, and so the related canteens: a nightmare for children, and indelible memory for adults. School canteens are always under inspection, in particular way the phases of processing, preparation and food conservation. In Italy, during December 2018, 224 school canteens have been inspected, and 81 have been signalized for irregularities with penalties until 576-thousand euros. Most of these infringements were due to hygienic and structural lacks of the food-processing areas, labelling and food tracking¹.

So, how to avoid to loom in the work suspension, and ensure hygiene, cleaning and disinfection? Allegrini team developed a **range of solutions** to solve it, promoting a **cleaning education inside and outside classrooms**.

KITCHEN NIGHTMARES: SCHOOL CANTEENS FAILED IN HYGIENE AND CLEANING

#1 All-in-one

Cleaning and hygiene in one-step solution? With **Jaminal Plus** it is possible. Thanks to its formulation enriched with surfactants, alkylatings, sequestrants and quaternary salts ammonium, the product can remove dirt and, at the same time, the residual bacterial count from all kitchen surfaces: tiles, steel, glass, aluminum and plastic. Tests performed by external labs certify the wide sanitization spectrum of the product: at 20°C and diluted at 4% (40 g/L), the product ensures a bactericide effect, with a contact time of 5 minutes...

Choose **Jaminal Plus!**

#2 Less is more

In every professional kitchen can not miss a product suitable for hotplates, ovens and grills cleaning. Effectiveness is the most important requisite: remove greasy coats, carbonized residues and anchored greases, that not all detergents can eliminate. Our suggestion is **FM 31 Piastre Cottura**, super concentrated detergent to be diluted with the proper dilution system, that from a box of 4 cans makes about 130 750ml ready-to-use bottles. Less is more!

Choose **FM 31 Piastre Cottura!**

#3 Last but not least

Even if under our feet, floor is at the top of priorities in terms of cleaning and hygiene, especially in school canteens where children and students can get distracted. That's because it is important to ensure a not dirty and slippery floor, avoiding the falling risk: **FM 65 Pavimenti Strong** is the best choice. With its degreasing, whitening and foaming-controlled power, it removes the most stubborn dirt, restoring the floor to its original appearance, eliminating tiles grayness as well.

Choose **FM 65 Pavimenti Strong!**

The “ready-to-use” alternative

If the canteen is small, we can offer you a ready-to-use alternative with the same effectiveness in a handy format. To clean and hygienize in one-step: **JP Ready**. To eliminate dirt from hot plates and ovens: **Brillform**. For shiny floors: **Gres Whitener**, properly diluted. It is comfy, isn't it?
